

I am interested in joining:

FRC TEAM -4293 TEAM KOMODO

Your Contact Information:

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Email: _____

Phone: _____

- I would like to join the team
- I would like to help mentor the team
- I have a student who is interested in the team

Please mail this form to:

Team Komodo

3129 Ramshorn Drive Castle Rock, CO 80108

Or visit us online at:

www.youngengineers.us

Use the "Contact Us" form under the "Help and Answers" page to send us your contact information and express your interest in joining the team.

We look forward to seeing you on Team Komodo soon!

YOUNG ENGINEERS ASSOCIATION

FRC TEAM -4293 TEAM KOMODO

Young Engineers Association

The Young Engineers Association (YEA!) is a volunteer-run, 501(c)3 nonprofit organization created to support middle and high school students who display an interest in science and engineering. Our goal is to further student interest in STEM fields by providing an exciting, hands-on engineering experience that cannot be taught in a classroom.

Students compete in a national robotics competition and participate in classes and other programs taught by mentors from the workforce. Through these programs, students work together as a team to design, build, and code robots to perform specific tasks. In addition to being exposed to and learning technical skills that will provide them a foundation for advanced STEM-based training, these programs teach students how to work as a cohesive team and impart to them the values and ethics required to successfully develop and deploy complex

FRC Team 4293

FRC Team 4293, Team Komodo competes annually in the Colorado FIRST Robotics Regional Competition. Our students and mentors meet year-round at a local machine shop in Louviers, CO. Students work with mentors from Lockheed Martin, United Launch Alliance, Focused on Machining, and Superior Metal Products, among others.

We are unique in that our industry-based mentors help students gain the practical skills and technical experience necessary to produce a 120-pound, competitive robot.

In 2012, our inaugural year, Team Komodo won the Rookie of the Year Award at the Colorado Regional.

Team Komodo was awarded the prestigious Entrepreneurship Award for outstanding team finance management in 2014. In 2018, Komodo won the Colorado Regional, attended the FRC National Championships in Houston, and placed first in the Energy Day off-season event hosted by Team 1619 and Team 4499.

What is the cost?

There is no cost to students and families wishing to be a part of Team Komodo. YEA is responsible for raising the funds to support FRC Team 4293.

Who is on our team?

Team Komodo is currently accepting high school aged students from any school who are willing to be part of a team-oriented robotics program.
